[Yerington OU-3 Tech Memo 3 13July2016.pdf](#)

Chris,

As we discussed, attached is the Yerington OU-3 Human Health Risk Assessment, Technical Memorandum 3. This memo discusses exposure scenarios for use in the HHRA. Once you and your team have had a chance to review, we would like to schedule a time to have a follow-up discussion. To reserve the time on everyone's calendar, let us know when you think your team's review will be complete and you would be ready to discuss any comments you have.

We look forward to continuing the discussion and completing the HHRA Work Plan.

As always, feel free to call with any questions.

Thanks,

-jack
